

Shadow Brackets

The colour coded solution for quick access and optimal storage of your cleaning tools

Vikan Shadow Brackets make hygienic storage easier than ever – even with limited wall space. Our Shadow Brackets are made from a smooth-finished stainless steel, hygienically designed, which makes them easy to clean and maintain. Installation is simple and fast.

Shadow Brackets can be colour coded by applying a coloured sticker to represent the area and tool, which will help you prevent cross-contamination while protecting your equipment.

Advantages of Vikan Shadow Brackets:

- Suitable for a range of sectors/industries including Food and Beverage, Food Service, and Food Retail.
- Designed for use with Vikan Tools, ensuring a perfect fit.
- Cost-effective: Can be purchased in individual or multiple units.
- Great alternative to a full-sized Shadow Board, especially in smaller spaces.

Use Shadow Brackets for:

Hand Brush & Dustpan

Handle w/ Broom or Deck Scrub

Handle with Squeegee

Shovels

Upright & Closable Dustpan Set

Colour it clean

Colour coded segregation helps minimise the risk of product cross-contamination from microbes and food residues, including allergens, chemicals, and foreign bodies. It works by assigning cleaning tools a specific colour for use in specific areas or for specific tasks. Effective colour coded storage of cleaning tools can help ensure that tools are always in the right place at the right time.

Storage matters

Proper storage of your cleaning tools and utensils is a critical part of maintaining hygiene and tool-maintenance standards. Vikan cleaning tools storage solutions include Shadow Brackets, Shadow Boards, Hygienic Hi-Flex Wall Bracket Systems, and a range of Wall Brackets, all of which are designed to increase cleaning efficiency and reduce tool damage and cross-contamination.

Shadow Brackets

Suitable for a range of sectors/industries including Food and Beverage, Food Service, and Food Retail.

The shadow bracket has been designed to provide a convenient storage solution for your cleaning tools. Beneficial where space is limited and ideal for mounting on a wall or pillar, where quick access is needed to the correct tool. Can be colour coded by applying a coloured sticker to represent the area and tool.
