

Hygienic and efficient scraper solutions

Improve your facility's food safety
efforts with the Vikan Scraper Family.

Where Vikan Scrapers can help

Hot or cold, large or small, hard or soft, close by or far away.
The Vikan Scraper Family meets ALL your scraper cleaning needs.

STAINLESS STEEL SCRAPERS

Tough soils

For some messes, only steel will do the job. Our selection of handheld stainless steel scrapers can handle even the toughest soils, with rounded blade corners protecting surfaces from scratching.

NYLON SCRAPERS

Hot surfaces

Hot surfaces can be difficult to scrape clean. Polypropylene scrapers can't tolerate prolonged contact with high temperatures. Metal scrapers can withstand the heat but may damage sensitive surfaces. Our nylon scrapers are tough and heat-resistant, to help you achieve the right result on hot surfaces.

LARGE THREADED SCRAPERS

Large areas

Scraping soils from floors, tables, walls and other large surfaces can be time-consuming and tedious work. Our large stainless steel or nylon scrapers help you cover more ground faster, while providing the perfect balance of strength, surface protection and flexibility.

POLYPROPYLENE SCRAPERS

Sensitive surfaces

There are many surfaces in food and beverage production facilities that shouldn't be cleaned with steel scrapers. Our polypropylene scrapers are tough on soils, but go easy on surfaces that steel can scratch or otherwise damage.

HANDLES

Distant areas

Bending down to scrape soils from floors and climbing to reach overhead surfaces is difficult and potentially dangerous. Vikan threaded handles make this work easier and safer. They fit all Vikan scrapers with threaded handles.

DOUGH CUTTER / SCRAPER

Cut, scrape, and clean with this all-in-one scraper solution

The Dough Cutter/Scraper can cut through dough, scrape off tough debris, or clean sticky deposits, all while being easy to hold.

Colour coded:

Available in 6 of our most popular colours.

Ergonomic hand grip:

The hand grip fills the palm, preventing strain and ensuring a strong, non-slip hold on the cutter.

Hanging hole:

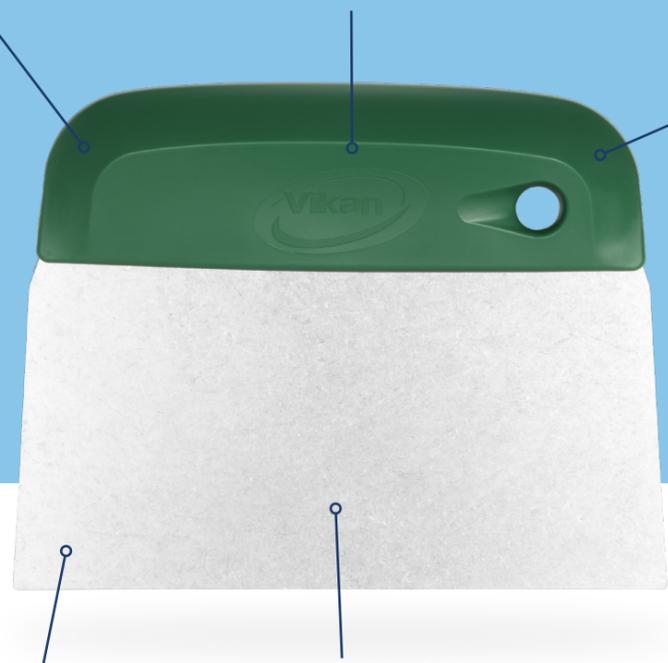

The hanging hole allows the dough cutter to dry and be stored on shadow boards or wall bracket hooks.

Stainless steel blade:

The flexible 0.5 mm blade has a high-strength attachment for extra durability.

Multi-Use:

The stainless steel blade cuts dough, pastry, and other soft foods, removes sticky deposits, and handles burnt or stuck-on debris.

Ideal for cutting and handling dough and removing debris from tables and cutting boards, as well as burnt-on soils from hot-plates, hobs, and baking trays.
