

Nylon Table & Floor Scraper

10 ", Stiff, White

Item Number: 29115

When you need a heavy-duty floor scraper that won't damage floors or machines, reach for the Vikan Nylon Scraper. When attached to any Vikan handle, the scraper blade can help clean the toughest messes. Use a Mini Handle to use it as a table scraper or attach it to a telescopic extension handle to reach high overhead. You can also add it to a standard-size handle for a ground scraper tool that is suitable for wet and dry applications. This scraper is effective at loosening stubborn debris on floors and inside tanks and food containers. It can remove tough, stuck-on chocolate, dried food debris, and more on benchtops and work surfaces. It's an excellent choice for cleaning stainless steel work benches or epoxy floors, as the nylon blade is gentle on sensitive surfaces. Both sides of the solidly constructed blade scrape effectively thanks to its arrow shape.
