

Window Squeegee

350 mm, Black

Item Number: 47719

Designed for efficient window cleaning, this Classic Range squeegee features a wide rubber blade that effectively removes water from surfaces for a clean, streak-free finish. Its 350 mm width makes it well suited for larger glass surfaces, such as windows and glass doors. The rubber blade is quick and easy to replace when worn (replacement blade, item no. 89019), helping to extend the service life of the squeegee. The grip position can also be adjusted to suit the cleaning task. For extended reach, the squeegee can be fitted with a cone adapter (item no. 282904) allowing it to be used with any Vikan threaded handle.
