

# Shovel, Metal Detectable, D Grip

1040 mm, White

Item Number: 56265

Lightweight and durable, this Metal Detectable Shovel features a one-piece construction that eliminates areas where bacteria can gather. Its smooth surface allows for easy cleaning, which makes it ideal for moving food ingredients or large quantities of food waste. Metal detectability enables use in production on food-contact surfaces. Can be tested using test kit (11113).

## General Information

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Colour            | White                                            |
| Material          | Polypropylene, Metal & X-Ray detectable additive |
| Metal Detectable  | Yes                                              |
| Country of Origin | Denmark                                          |

## Product Dimensions

|                              |                   |
|------------------------------|-------------------|
| HandleShovelLength           | 0 < 1150 mm       |
| Shovel Blade Size, L x W x H | 327 x 271 x 50 mm |
| Product Length/Depth         | 1040 mm           |
| Product Width                | 271 mm            |
| Product Height               | 120 mm            |
| Net Weight                   | 1.41 kg           |

## Packaging & Shipping Details

## Compliance & Standard Details

|                                                                         |     |
|-------------------------------------------------------------------------|-----|
| Complies with (EC) 1935/2004 on food contact materials <sup>1</sup>     | Yes |
| Complies with EU Regulation 2023/2006/EC of Good Manufacturing Practice | Yes |
| Complies with FDA Regulation CFR 21 <sup>1</sup>                        | Yes |
| Complies with UK 2019 No. 704 on food contact materials                 | Yes |
| Complies with REACH Regulation (EC) No. 1907/2006                       | Yes |
| Complies with California Proposition 65                                 | Yes |
| Complies with Halal and Kosher                                          | Yes |
| PFAS intentionally added                                                | No  |

## Usage Limits

|                                                   |         |
|---------------------------------------------------|---------|
| Recommended sterilisation temperature (Autoclave) | 121     |
| Max. cleaning temperature (Dishwasher)            | 93 °C   |
| Max. usage temperature (food contact)             | 100     |
| Max usage temperature (non food contact)          | 100     |
| Min. usage temperature <sup>3</sup>               | -20     |
| Min. pH-value in usage concentration              | 2 pH    |
| Max. pH-value in Usage Concentration              | 10.5 pH |

New equipment should be cleaned, disinfected, sterilised and any labels removed, as appropriate to its intended use, e.g. high risk vs. low risk food production areas, general hospital areas vs. intensive care units, before use.

1. See Declaration of Compliance for further details on food contact

3. Do not store the product below 0° Celsius.
