

Squeegee, Angle Adjustable for 5662x, 5665x and 5666x

260 mm, Black

Item Number: 77109

A squeegee is an excellent choice for moving liquids like water, yoghurt, coffee, and more. When combined with the upright dustpan set (5662x) or the closable dustpan set (5665x), our Angle Adjustable Squeegee can be one of the most efficient tools in your facility when it comes to wet cleaning. Part of its efficiency comes from the soft blade and the angle-adjustable head that follow the curves of the surface. The soft blade makes moving water into the dustpan or onto the lip of a dustpan easier. The adjustable head makes the squeegee more ergonomically friendly and reduces unnecessary strain on the wrist during use. The Angle Adjustable Squeegee makes use of material that would otherwise go to waste from our manufacturing process. Because of this, the squeegee only comes in grey/black, though it will fit any Vikan handle.
