

# Hose Coupling 1/2" for 3/4" Hose

(Q)

Item Number: 88071352

1/2" hose coupling for 3/4" hose. Fits all Vikan handles with (Q) nozzle and water tap nozzle, 880700. Can also be connected to nozzle, 880712. Low lead content.

## General Information

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Material          | Chromium-plated brass, Galvanized steel (DIN 1.09035), Synthetic rubber |
| Country of Origin | Denmark                                                                 |

## Product Dimensions

|                      |          |
|----------------------|----------|
| Couplings Size       | 1/2 "    |
| Product Length/Depth | 50 mm    |
| Product Width        | 28 mm    |
| Product Height       | 28 mm    |
| Net Weight           | 0.113 kg |

## Packaging & Shipping Details

## Compliance & Standard Details

|                                                  |     |
|--------------------------------------------------|-----|
| Complies with FDA Regulation CFR 21 <sup>1</sup> | Yes |
|--------------------------------------------------|-----|

## Item Number: 88071352

|                                                   |     |
|---------------------------------------------------|-----|
| Complies with REACH Regulation (EC) No. 1907/2006 | Yes |
| Complies with California Proposition 65           | Yes |
| Complies with Halal and Kosher                    | Yes |
| PFAS intentionally added                          | No  |

## Usage Limits

|                                          |       |
|------------------------------------------|-------|
| Max. bars pressure                       | 25    |
| Max usage temperature (non food contact) | 80    |
| Min. pH-value in usage concentration     | 2 pH  |
| Max. pH-value in Usage Concentration     | 12 pH |

The hose coupling on the hose and foaming gun have to be greased regularly to maintain the coupling ability on the equipment. The grease applied during mounting will be rinsed away by the water flow and thus needs to be renewed.  
1. The product is suitable for use with water only and not for direct food contact.
